

INDIA GST 2026 - SYNTHETIC DOCUMENT DATASET

Three independent GST client-upload sets with related synthetic GSTR-2B statements

All data is fictional. The PDFs are designed for RPA, OCR, AI extraction, validation and reconciliation testing only.

What each set contains

Each set contains six client-uploadable PDF document categories: Sales Register, Purchase Register, Sales Invoices, Purchase & Expense Invoices, Credit/Debit Notes, and a GST Special Transactions Statement. Each set also contains one related GSTN-style synthetic GSTR-2B and an index/ground-truth PDF.

Important classification

Sales and purchase registers are business records; invoices and credit/debit notes are source documents; the GST Special Transactions Statement is an internal support schedule; GSTR-2B is a Government-generated read-only ITC statement in real compliance. The GSTR-2B PDFs in this package are synthetic visual test documents, not genuine portal downloads.

Scenario matrix

Set	Business Type	Period	Key AI / Reconciliation Cases
Set 01 - Technology Services (Maharashtra)	Monthly - Regular Taxpayer	July 2026	CG/0726/441 and MOM/0726/784 match between purchase documents and GSTR-2B.; PCS/0726/219 exists in the purchase register but is missing from GSTR-2B.; CG/CN/0726/09 appears in GSTR-2B and should reduce/net-off ITC.; LPA/0726/055 is an unregistered-supplier RCM bill and is not expected in GSTR-2B.
Set 02 - Goods Trading (Karnataka)	Monthly - Regular Taxpayer	August 2026	PTM/0826/220 is an exact match.; EFI/0826/889 has a value mismatch: books taxable value is INR 90,000; GSTR-2B reports INR 95,000.; FC/0826/880 in books appears as FC/0826/808 in GSTR-2B, creating an invoice-number mismatch.; SH/0826/332 exists only in GSTR-2B and is not present in the purchase register.; PGH/0826/155 is shown as ITC Not Available due to place-of-supply restriction.; BLA/0826/066 is an RCM record and appears separately in GSTR-2B.
Set 03 - Export Manufacturer (Gujarat)	Monthly - Regular Taxpayer	September 2026	MCS/0926/901, PTI/0926/611 and OFS/0926/305 match GSTR-2B.; Bill of Entry 8723456 appears under Import of Goods with IGST INR 36,000.; MCS/CN/0926/17 appears as a credit note and reduces/net-offs ITC.; GPS/0926/440 is shown under ITC Rejected because the record was rejected in IMS.; CTL/0926/190 exists in books but is missing from GSTR-2B.; GDA/0926/77 is import of services under RCM and is not part of GSTR-2B.

Official-design basis used for the synthetic fields

No.	Design basis
1	Tax invoice and credit/debit-note documents include common statutory particulars such as supplier/recipient GSTIN, document number and date, place of supply, HSN/SAC, taxable value, GST rate, tax head-wise values, reverse-charge flag and totals.
2	GSTR-2B is structured with ITC Available (Table 3), ITC Not Available (Table 4), ITC reversal/net-off and IMS-rejected sections, followed by document-level B2B, RCM, credit-note and import details.
3	Deliberate exceptions are included: missing-in-2B invoices, 2B-only invoices, number/value mismatches, place-of-supply restriction, supplier credit notes, RCM and IMS rejection.

No PDF in this package should be uploaded to the Government GST portal or relied upon for a real tax position.
